

# PROVANTAGE<sup>®</sup>

Time & Billing • Business Intelligence

## Set up ProVantage with integrated credit card processing from Payment Processing, Inc. (PPI).

*ProVantage Software, Inc. is partnered with PPI to bring you an integrated payment processing solution loaded with time and money saving benefits for you!*

### The Case for Accepting Credit Cards

Accepting credit cards is becoming the status quo for the preferred payment method of law firm clients. Our software, powered by Payment Processing, Inc. (PPI), adds a host of benefits:

- **Measured Administrative Savings Which Far Exceeds Processing Costs** – PPI's integrated payment solution is fully compatible with your ProVantage software system. Unlike standalone terminal solutions, our software with the PPI PayMover<sup>®</sup> payment gateway eliminates data entry errors, the need for separate posting and data entry into the G/L. It also removes the need to reconcile, on a monthly basis, your bank issued-credit card processing statements to the G/L and Client A/R ledger. All of which results in saving hours of work and related processing headaches.
- **Enhanced Cash Flow with Guaranteed Payments** – You get paid faster and reduce collection costs associated with slow payments and the amount of write-downs for account aging.
- **Enhanced Client Service; Better Meeting Client Needs** – Clients of all sizes appreciate the option of paying with a credit card, thereby allowing them to save costs through gaining rewards points under their card programs. Additionally, it allows clients to leverage their operating credit lines through card use. Studies show that 92% of those surveyed carry at least one credit card and employ it as their preferred method of payment for both personal and business use.

### PPI Services Just for ProVantage Users

- **The Major Card Brands Require all Businesses to be PCI Compliant** – The PayPros PCI Compliance Program for Businesses provides an optional low-cost, simple service to meet that requirement.
- **Financial Payment Expertise** – PPI pricing experts have analyzed thousands of merchant accounts! Get a free detailed pricing analysis that will provide you with everything you need to know about your rates and how PPI can save you money.
- **Free PPI PayMover Support** – Provided by PPI's expert staff 24/7/365. Make one phone call for all your payment processing needs – no more bouncing between vendors.

### Who is PPI?

Since 1995, nearly 40,000 businesses (many of which are law firms) trust PPI to process their electronic payments. With PPI you can also expect assistance establishing processing that meets state bar credit card compliance. And in 2009, PPI processed in excess of \$5.5 billion in Visa<sup>®</sup> and MasterCard<sup>®</sup> payments.
